Cannabis

This resource can help you identify if you are experiencing negative consequences because of your cannabis use. Based on your responses, you will receive non-judgmental feedback encouraging you to think about your choices that may be putting you at risk for harmful consequences. It can also provide ways for you to keep yourself and your friends safer. If necessary, you may be referred to our campus and community resources.

SCREEN U
For a healthier campus life.
Prescription Medications

This resource can help you identify if you are experiencing misusing prescription medications. Based on your responses, you will receive non-judgmental feedback encouraging you to think about your choices that may be putting you at risk for harmful consequences. It can also provide ways for you to keep yourself and your friends safer. If necessary, you may be referred to our campus and community resources.
